Group Travel Reimagined

Each group and trip is unique – Momentum’s Charter Sales Managers invest endless hours working with our clients to design a travel experience that does not just meet needs, it exceeds expectations. We have worked with groups from all industries and have chartered every type of aircraft available. Our team will take care of each and every detail to ensure successful flights with superior service end-to-end.

When chartering for larger groups of people, the details are everything. With Momentum on your team, we won’t just explain everything... we’ll take care of everything.

Elevate Your Events

When traveling to an event, the experience truly starts when you board the plane – when you choose Momentum you ensure your air travel is crafted synergistically as part of the event. Our team of air charter specialists offer decades of savvy in creating bespoke experiences and customized itineraries, and are familiar with the unique array and volume of requirements that need to be considered when coordinating well-orchestrated flights for industry-specific, high profile events.

Navigating People, Uniting Teams

Your workforce is the heart of your business. Momentum has extensive experience designing, developing, and executing workforce transportation flights. Whether a one time ad-hoc flight, a sensitive and urgent mission, or seasonal / series charter program to under-serviced, hard-to-reach locations, Momentum delivers solid, secure air charter flight options to serve projects of all types and sizes.

Take Your Tours to the Skies

Putting together and pulling off a multi-stop travel schedule is like setting up dominoes. You need careful planning and solid alignment to get all the pieces to fall into place at the right time.

Momentum offers comprehensive multi-stop air charter flight programs for a wide range of industry needs.

First in Flight, First to Respond

Momentum has been delivering urgent response, disaster relief, and emergency management solutions for over 30 years with a global network that activates within hours.

We are leaders during humanitarian crises and a long-term partner of federal and international government agencies, militaries, non-profit aid organizations, and companies tasked with providing on-site assistance and recovery services.

We have been first responders for typhoons in the Philippines, hurricanes in Puerto Rico, wildfires in Canada and Hawaii, and violence in the Middle East. We have evacuated refugees from war zones and repatriated thousands during the Covid-19 pandemic.

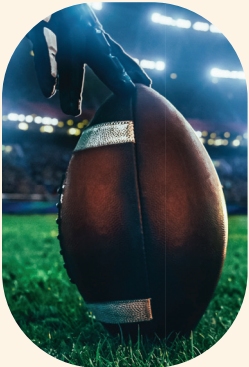

Momentum's 24/7 Urgent Response and Operations Teams spring to action the moment a crisis sparks.

We transport Search and Rescue personnel in the hours following a natural disaster and facilitate movements for troops and cargo in support of peacekeeping missions. We are trusted to engineer and supply swift solutions and will always have our capable, experienced staff on site to address the provision of air transportation options in response to world disasters, whenever and wherever they may arise.

Momentum offers expertise you can count on and the experience you need to navigate arranging crisis response transportation successfully.

GROUP CHARTER CASE STUDIES

Pro-Football Team - Full Season Away Game Charter Flights

Need

A CFL team required a cost-effective and reliable air charter provider to manage their away game travel schedule for the entire 2024 season. They needed a solution that could ensure efficient and seamless air transportation for the team while minimizing complexities.

Solution

Momentum stepped up, providing a tailored solution, sourcing multiple operators and selecting aircraft that were not only optimally placed but also the most suitable for the team's needs. By negotiating the best pricing for each individual flight, Momentum was able to offer the team a cost-competitive travel solution. To further simplify the process, Momentum contracted the service as a single, unified solution, giving the team the ease of dealing with one supplier, and a single point of contact for all flight arrangements.

Throughout the season, dedicated Momentum operations staff were on site to manage each flight, working closely with the team's Operations and Equipment managers to ensure swift and straightforward departures for every game. Momentum's hands-on approach provided the team and its management with a hassle-free, reliable travel experience, allowing the team to focus on their game strategy while Momentum took care of everything else.

International Resort Chain - Marketing Fam Trips

Need

A prominent five-star luxury resort chain was preparing to launch a new Caribbean property and planned to promote it by bringing 500 hundred U.S.-based travel agents to experience the resort in person. To cultivate a five-star travel experience commensurate with their brand, they needed dedicated charter aircraft to transport the agents.

Solution

Momentum sourced Airbus 320 and 321 aircraft to accommodate the large group and operated multiple round-trip flights, transporting the agents for a five night stay at the new Caribbean resort. We organized customized in-flight catering, meeting all dietary needs and special meal requests. Additionally, two dedicated operations staff accompanied the group for the entire journey, overseeing each departure and handling any last-minute changes on-site, ensuring a smooth, stress-free experience.

Religious Travel / Pilgrimages

Need

A religious group was in need of a wide-body aircraft to transport 250+ passengers to Europe for a pilgrimage event. They were looking for a reliable air charter partner to manage the entire travel process, including personalized accommodations for passengers with special medical needs.

Solution

Momentum provided an Airbus 330, fully catered with two meal services, and ensured that each passenger with special medical requirements received personalized attention. To ensure everything ran seamlessly, Momentum sent three experienced operations managers to oversee the departure and assist the group throughout the process. The result was a well-coordinated, stress-free experience that met the group's unique needs.

Expedition Cruise Lines

Need

A well-established expedition cruise line required a full-scale charter and logistics partner for their Summer and Fall seasons. They were looking for a provider to coordinate multiple charter flights on aircraft of varying sizes, connecting domestic and international hub airports with remote Arctic locations. The goal was to shuttle embarking and disembarking passengers between their fleet of cruise ships and the airports, while ensuring flexibility and reliability throughout the season.

Solution

Momentum collaborated closely with the cruise line's planning operations and client services teams to design customized charter flight itineraries for the entire season. We provided 24/7 support, offering detailed airport and airlift assessments, schedule building, manifest management, catering, on-site coordination, and created special accommodations for passengers whenever and wherever needed. When a mechanical issue disrupted one of the ship's itineraries and it had to go down for repairs, we swiftly adjusted multiple flight schedules, assembling the ideal recovery plan and mitigating the interruption to passenger flow.

Caribbean Tour Operator - Series Charter Program

Need

A Caribbean tour operator with over 25 years in the business was looking to improve control of its airlift operations by running dedicated charter flights year-round. They needed an air charter provider to assess routes, source suitable operators, and implement a sustainable charter flight program that aligned with their needs.

Solution

Momentum stepped in to evaluate the tour operator's routes and identified the best suited airlift options. Beyond sourcing the operator, Momentum designed an ancillary revenue program that included advanced seat selection, travel upgrades, baggage fees, inflight catering, and bar service, maximizing additional revenue streams for the client. Momentum's operations team managed all departures, coordinating 2-4 flights per week from multiple cities to various Caribbean destinations, transporting 800-1200 passengers weekly, depending on the season.

Haiti Evacuation

Need

In February 2024, following a surge of violent gang activity in Haiti, the Canadian government was in urgent need of a multi-modal airlift solution to safely evacuate its citizens and their families.

Solution

Momentum swiftly mobilized a two-tiered evacuation plan, combining fixed-wing and rotary airlift solutions. Helicopters accompanied by security teams covertly transported Canadians from multiple locations in and around Port-au-Prince to undisclosed safe zones, where charter flights awaited to fly them to Montreal, Canada. Momentum's urgent response project managers coordinated both helicopter and aircraft movements on the ground to ensure smooth execution of all airlifts. To maximize seating on the operating helicopters, Momentum sourced additional seats from Chile, rapidly installing them upon their delivery to increase the number of passengers that could be rescued per mission.

Migrant Movements

Need

Governments and international aid organizations frequently face the challenge of relocating large groups of migrants to new countries. Such movements require safe, reliable, and compassionate air charter services.

Solution

Over the past decade, Momentum has proudly facilitated the relocation of more than 30,000 migrants, partnering with governments and aid organizations to provide dedicated chartered aircraft solutions. Whether the destination is Canada, the United States, Europe, or the Middle East, Momentum's experienced team has delivered expert planning, compassionate inflight service, and unwavering support for both the organizing party and their passengers throughout these journeys. Momentum ensures that each charter flight offers a safe and dignified passage, helping migrants embark on their journey to new homes and bright futures.
